New Initiative
for Jr. Physicians
& Dentists!

ENHANCEMENT OF RESEARCH METHODS AND BIOSTATISTICS INITIATIVE

Are you a junior physician or dentist looking to enhance your research skills?

We have great news for you! Introducing the “Enhancement of Research Methods and Biostatistics” Initiative to support you in your research design and analysis.

The following options will be subsidized in part by the Gray Faculty of Medical & Health Sciences, subject to relevance to your research (based on application). Open to Residents, Instructors, Lecturers & Senior Lecturers

Visit us at <https://en-med.tau.ac.il/application/biostatistic/initiative> to apply

WHAT WE OFFER:

Research Methods and Biostatistics Workshop

(as part of the Continuous Education Program):

This workshop will boost your ability to conduct your statistical analysis. The workshop includes 6 meetings (4 hours each) - 2 zoom meetings will be dedicated to a review of research methods and 4 on-campus meetings will be dedicated to hands-on biostatistics using the SPSS statistical program.

<https://med.tau.ac.il/epidemiology&preventive-med>
